

Story 2

The map represents countries weather in..	This graph represents the correlation betwe..	This rows and columns are represents the in..	This bars represents the index score based..	This lines represents the index score based..	This peaks graph represents the inflati..	This graph represents t..
---	---	---	--	---	---	---------------------------

Story 2

- The map represents countries weather in..
- This graph represents the correlation betwe..**
- This rows and columns are represents the in..
- This bars represents the index score based..
- This lines represents the index score based..
- This peaks graph represents the inflati..
- This graph represents t..

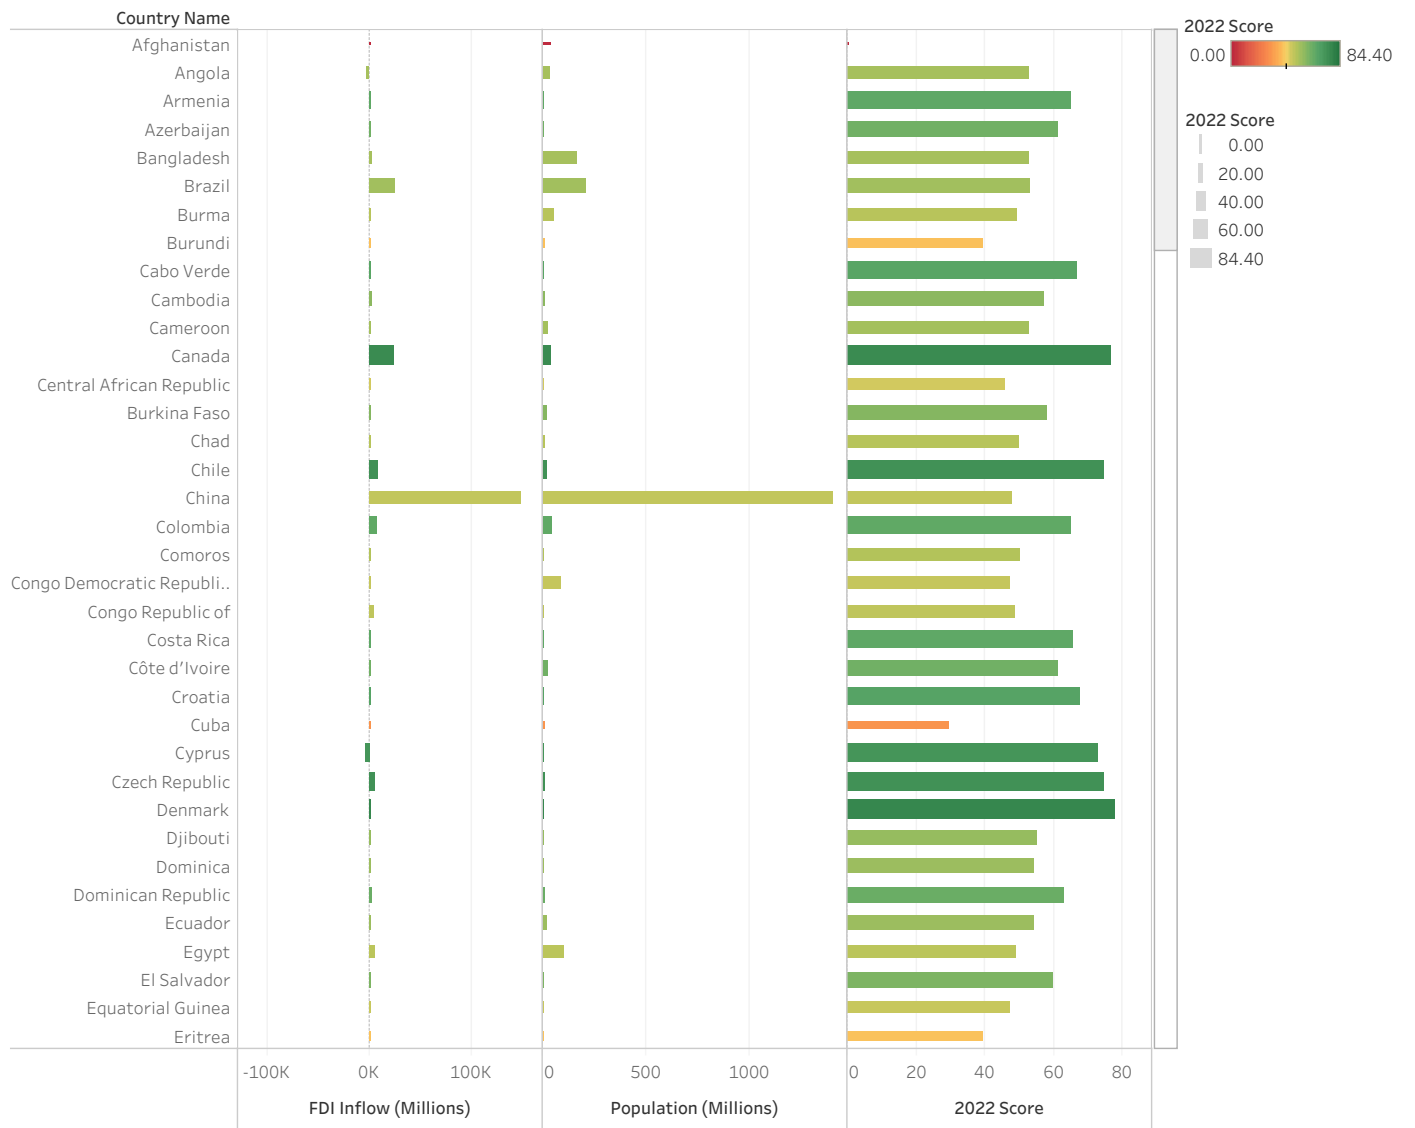

Story 2

The map represents countries weather in..	This graph represents the correlation betwe..	This rows and columns are represents the in..	This bars represents the index score based..	This lines represents the index score based..	This peaks graph represents the inflati..	This graph represents t..
---	---	--	--	---	---	---------------------------

Story 2

- The map represents coun..
- This graph represents the correlation betwe..
- This rows and columns are represents the in..
- This bars represents the index score based..
- This lines represents the index score based..
- This peaks graph represents the inflati..
- This graph represents the corr..

Story 2

This graph represents the c..

This rows and columns are represents the in..

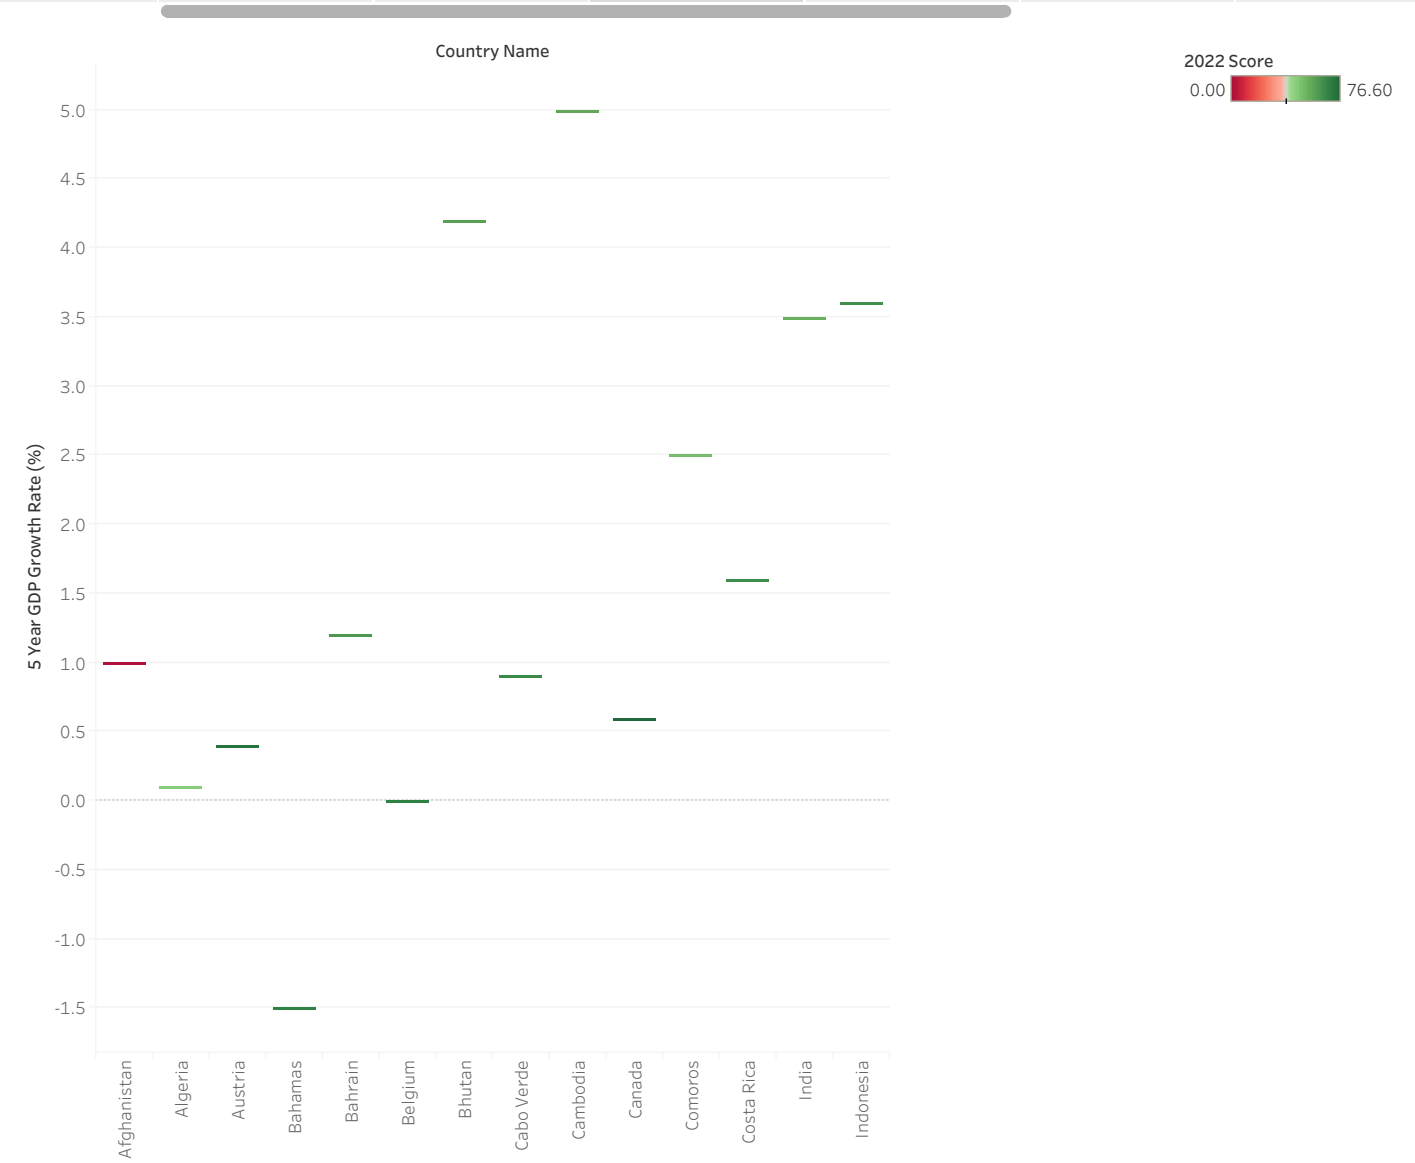

This bars represents the index score based..

This lines represents the index score based..

This peaks graph represents the inflati..

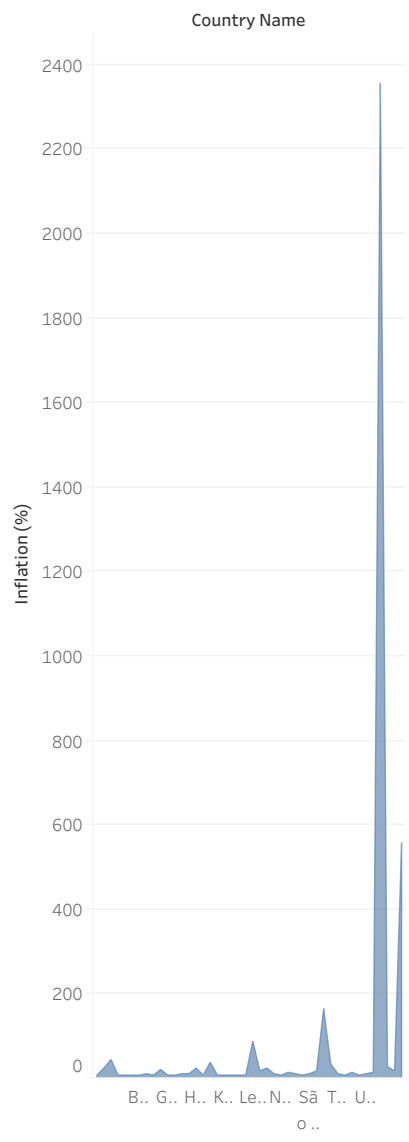

This graph represents the correlation betwe..

This peak graphs represents the corr..

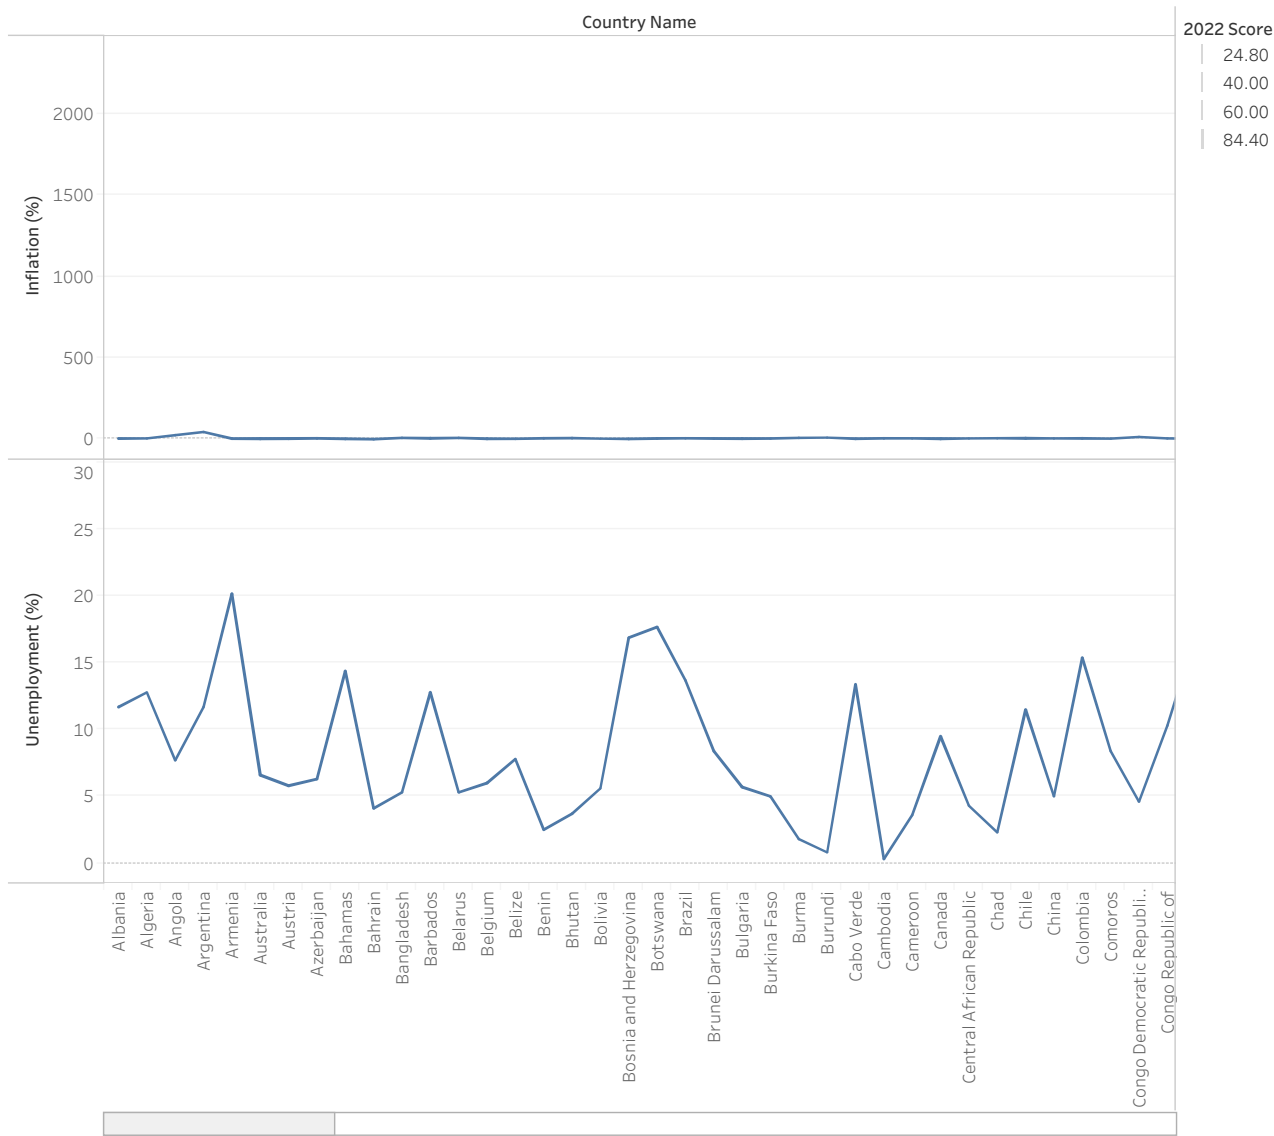

Story 2

This rows and columns are rep..	This bars represents the index score based..	This lines represents the index score based..	This peaks graph represents the inflati..	This graph represents the correlation betwe..	This peak graphs represents the correl..	The GDP growth rate of top 40 coun..
---------------------------------	--	---	---	---	--	--------------------------------------

Story 2

- This bars represents the i..
- This lines represents the index score based..
- This peaks graph represents the inflati..
- This graph represents the correlation betwe..
- This peak graphs represents the correl..
- The GDP growth rate of top 40 countries.
- Correlation between GDP (PPP) monetar..

Story 2

This lines represents the i..

This peaks graph represents the inflati..

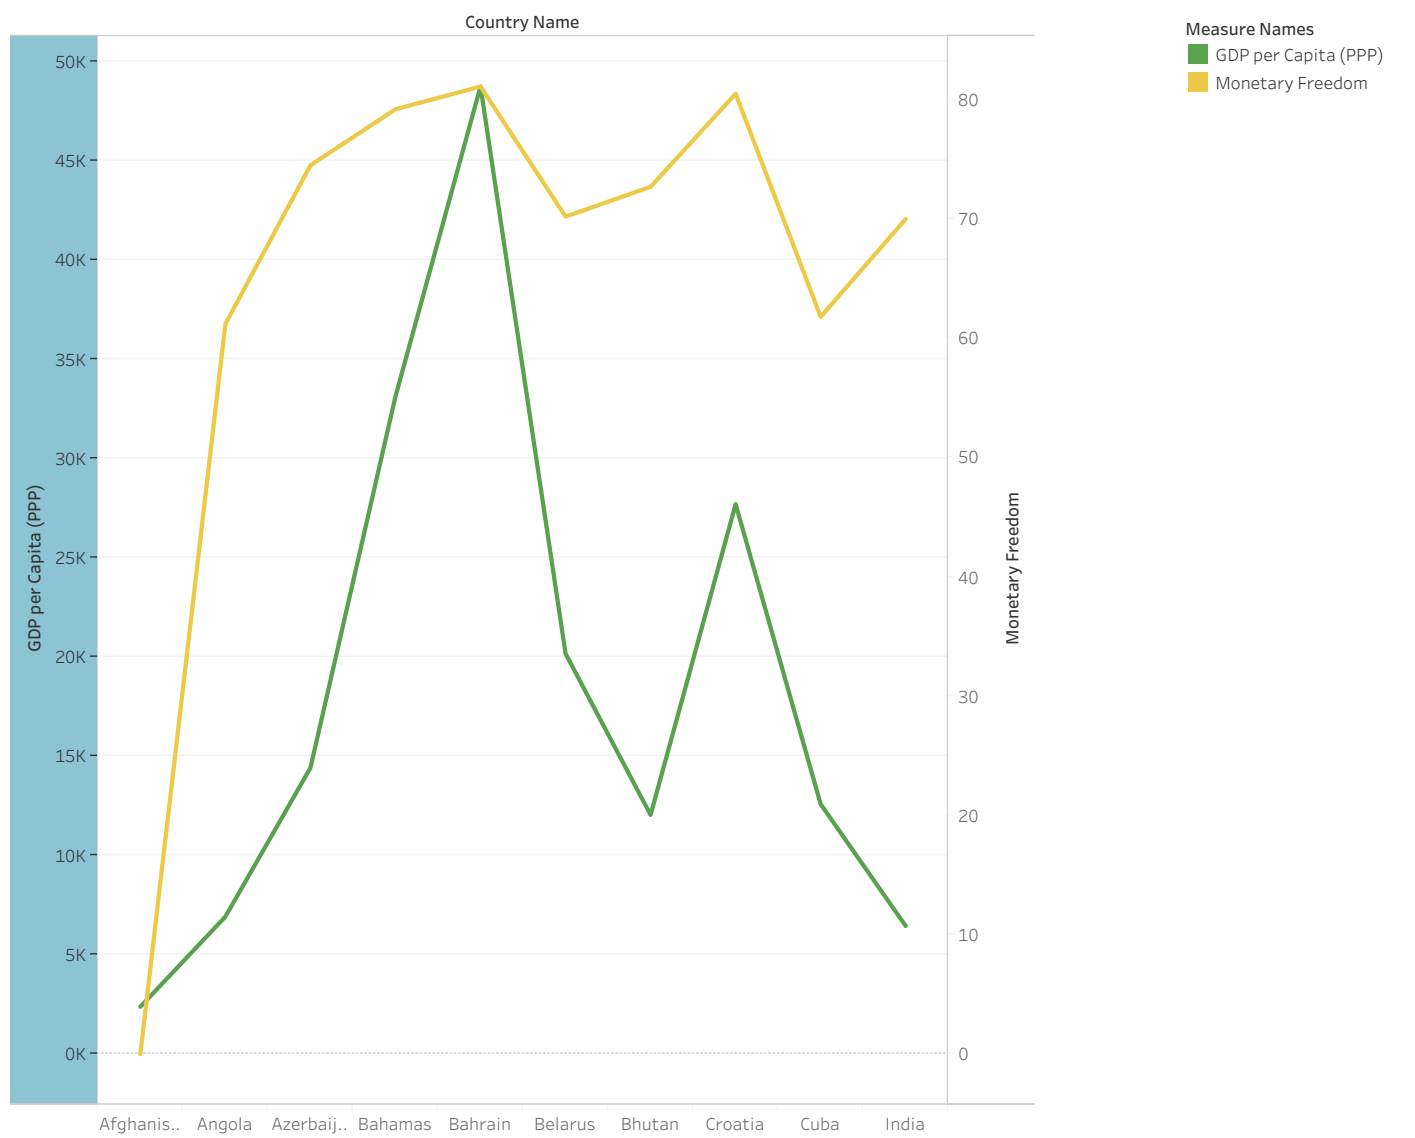

This graph represents the correlation betwe..

This peak graphs represents the correl..

The GDP growth rate of top 40 countries.

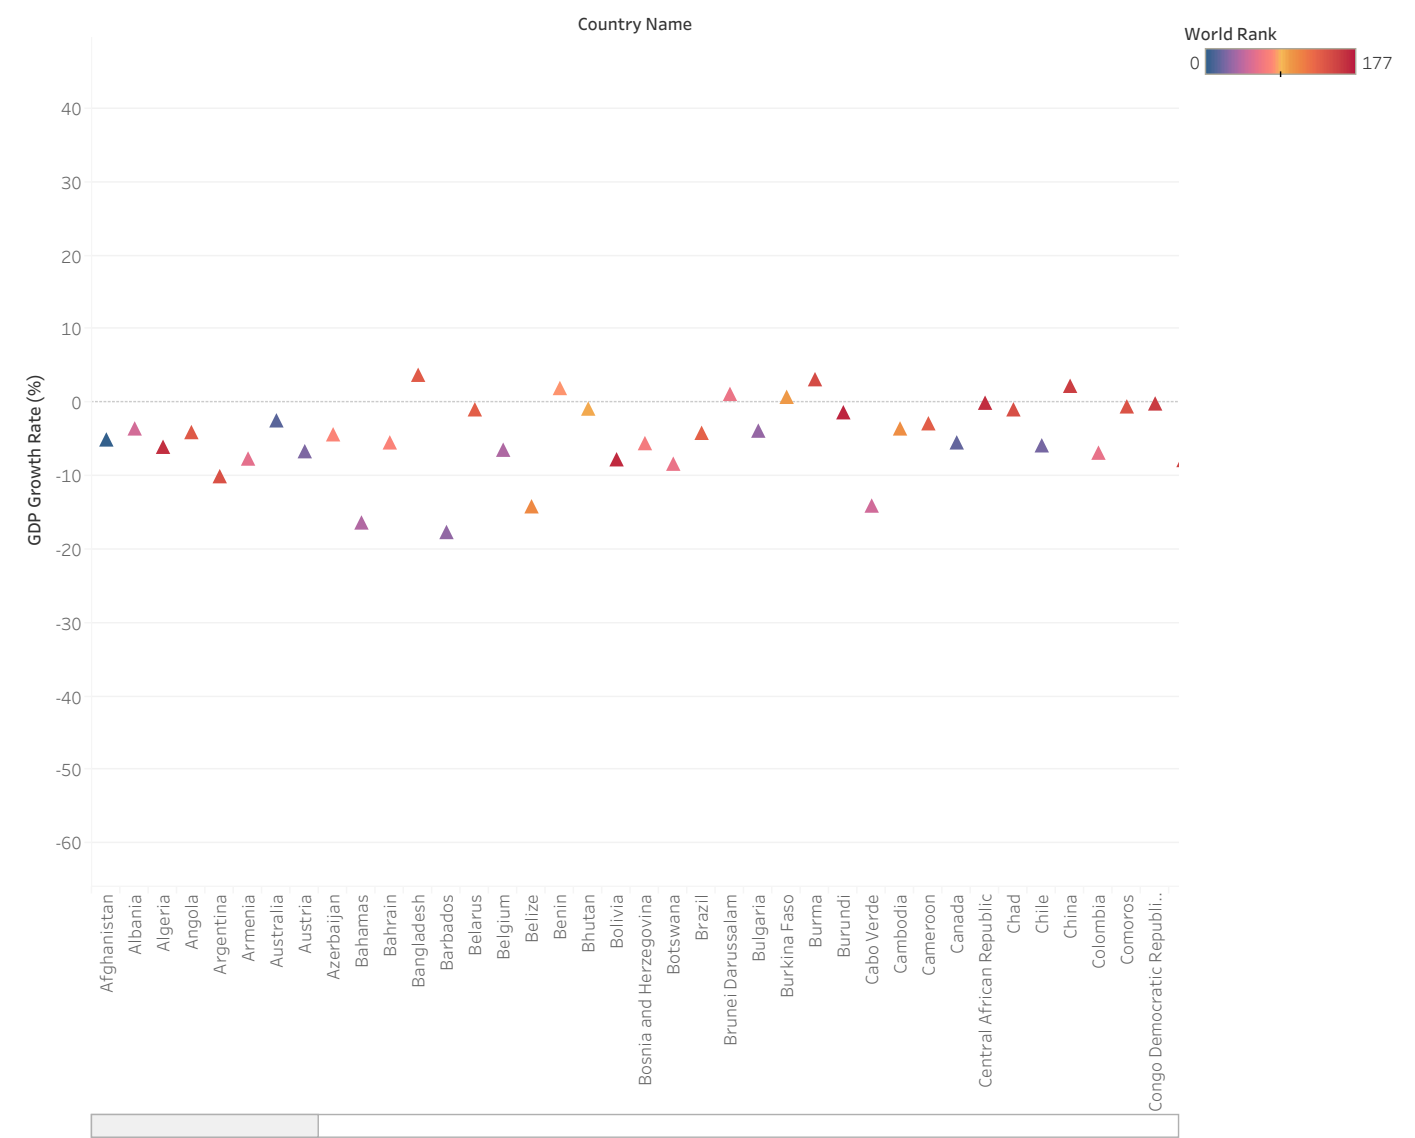

Correlation between GDP (PPP) monetary f..

Top 40 countries by growth rate.

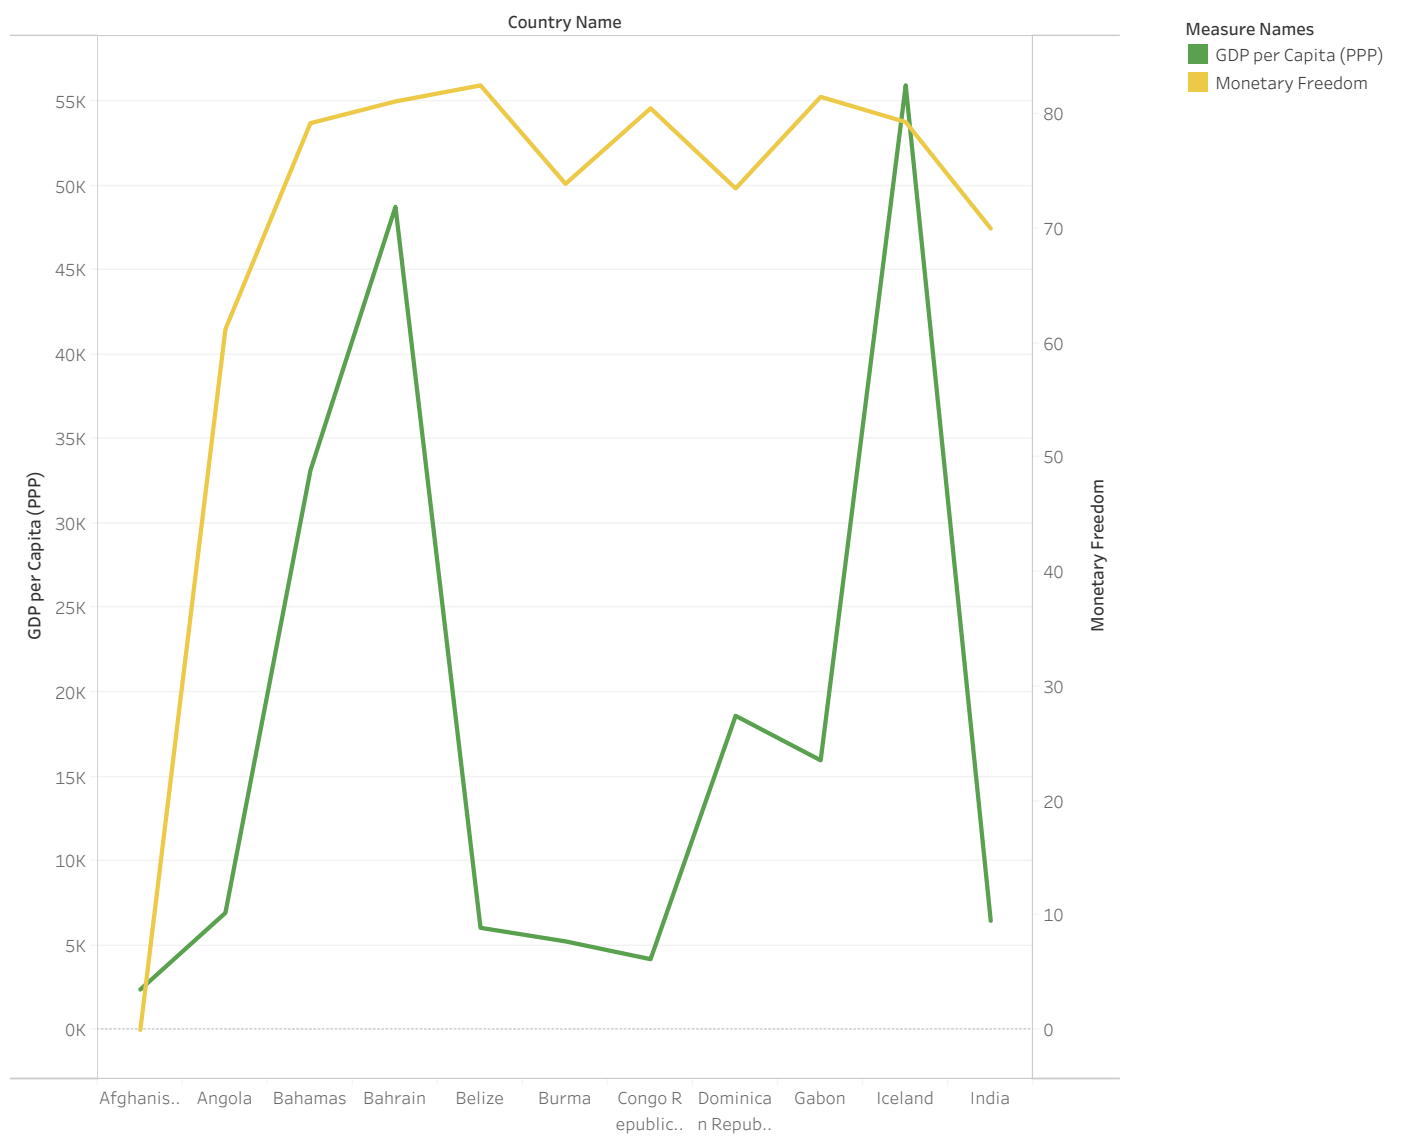

Story 2

- This lines represents t..
- This peaks graph represents the inflati..
- This graph represents the correlation betwe..
- This peak graphs represents the correl..
- The GDP growth rate of top 40 countries.
- Correlation between GDP (PPP) monetary f..
- Top 40 countries by growth rate.

Story 2

- This lines represents t..
- This peaks graph represents the inflati..
- This graph represents the correlation betwe..
- This peak graphs represents the correl..
- The GDP growth rate of top 40 countries.
- Correlation between GDP (PPP) monetary f..
- Top 40 countries by growth rate.

Story 2

This lines represents t..	This peaks graph represents the inflati..	This graph represents the correlation betwe..	This peak graphs represents the correl..	The GDP growth rate of top 40 countries.	Correlation between GDP (PPP) monetary f..	Top 40 countries by growth rate.
